

2012 Defend Oregon Coalition Endorsement Form

I/We oppose attempts to take away the rights of public employees, charities, and nonprofits to participate in the political process. I/We oppose Bill Sizemore's **Initiative Petition 3** and other similarly worded initiatives that would revoke public employees' rights to use their own paycheck to contribute to their unions or to charities that advocate for better public policies.

It's unfair to silence the voice of the very people and organizations that are fighting to protect Oregon's priorities.
